Models WR9A, WR9V
Dew Point Converter

JUXTA

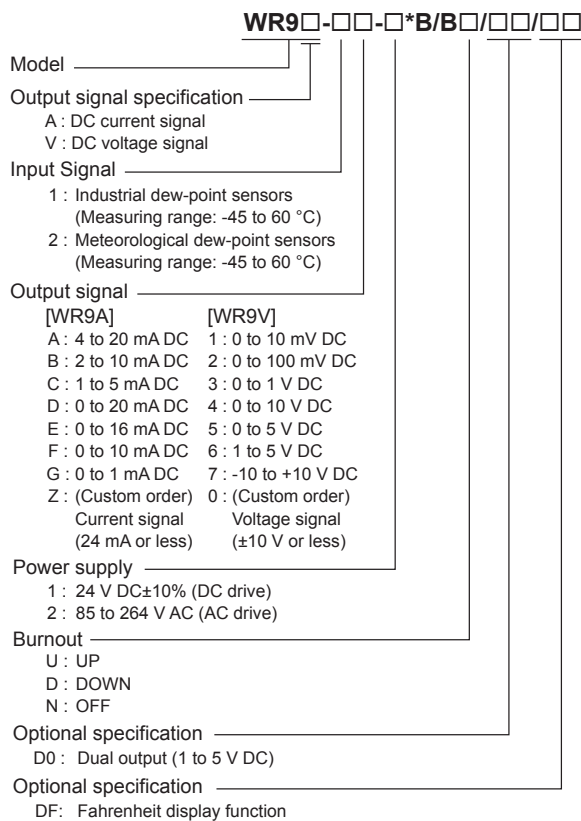

GS 77J09R09-01E

■ General

The WR9A/WR9V is a compact, front terminal connection type dew point converter that converts dew-point temperature signals into isolated DC current or DC voltage signals.

- Burnout setting, I/O adjustment and I/O monitoring can be made using the optional Parameter Setting Tool (VJ77) or Handy Terminal (JHT200).
- Dual output and 2000 V AC withstand voltage specifications are available upon requests.
- For the Fahrenheit display, specify the option “/DF”.

■ Model and Suffix Codes

Note: Difference between Industrial and Meteorological dew-point sensors.
 Industrial: a dew-point less than 0°C comes in contact with the ice.
 Meteorological: a dew-point less than 0°C comes in contact with supercooled water.
 These sensors are different in the dew-point and resistance of 45 to 0°C. At the temperature of 0 to 60°C, they are the same.

■ Ordering Information

Specify the following when ordering.

- Model and suffix codes: e.g. WR9V-A6-2*B
- Input range :e.g. -20 to +40°C

■ Input/Output Specifications

■ Standard Performance

Accuracy rating: ±0.2% of span or 0.2°C, whichever is greater (including linearization error)
 Accuracy is not guaranteed for output level less than 0.5% of the span of a 0 to X mA output range type.

Dual output (optional): Dual output (optional):
 Relative error between output 1 and 2 is within ±0.2%. These outputs are not insulated.

Response speed: 200 ms, 63% response (10 to 90%)

Burnout: Up, Down or Off ; burnout time is 60 sec. or less.

Insulation resistance: 100 MΩ or more at 500 V DC between input and output, input and power supply, input and ground, output and power supply, output and ground, and power supply and ground.

Withstand voltage:

DC drive 1500 V AC/min. between input and (output and power supply). 500 V AC/min. between output and power supply.

AC drive 1500 V AC/min. between input and output, input and power supply, input and ground, output and power supply, output and ground, and power supply and ground.
