

For details about the functions and specifications of the module, see the user's manual of the PX8000.

Module Handling Precautions

Be sure to follow the safety precautions listed below. YOKOGAWA assumes no liability for the customer's failure to comply with these requirements. For information about how to install and uninstall modules and the specifications of the modules, see the user's manual of the PX8000 (hereafter referred to as "the instrument").

WARNING

- To prevent electric shock and damage to the instrument, turn the instrument's power switch off first, and then install or uninstall modules.
- Check that input cables are not connected to input terminals before installing or uninstalling modules.
- To prevent electric shock and to ensure that the specifications of the instrument are met, attach the supplied cover panels to the unused slots on the instrument. If you use the instrument without covering empty slots with cover panels, the instrument may malfunction due to dust build-up or overheating.
- If a module comes out of a slot when you are using the instrument, electric shock or damage to the instrument or module may result. Be sure to fasten the top and bottom screws of the module before use.
 - Torque for tightening the screws: 0.6 N•m
- Do not apply a voltage that exceeds the maximum input voltage, withstand voltage, or allowable surge voltage.
- To prevent electric shock, properly connect the instrument's protective earth ground.
- To prevent electric shock, be sure to fasten the module screws. Otherwise, the electrical and mechanical protection functions will not be activated.
- Do not leave the modules connected to the instrument in environments in which a voltage surge may occur.

See below for operating environment limitations.

CAUTION

This product is a Class A (for industrial environments) product. Operation of this product in a residential area may cause radio interference in which case the user will be required to correct the interference.

Waste Electrical and Electronic Equipment

Waste Electrical and Electronic Equipment (WEEE), DIRECTIVE 2002/96/EC

(This directive is valid only in the EU.)

This product complies with the WEEE Directive (2002/96/EC) marking requirement. This marking indicates that you must not discard this electrical/electronic product in domestic household waste.

Product Category

With reference to the equipment types in the WEEE directive Annex 1, this product is classified as a "Monitoring and Control instrumentation" product.

Do not dispose in domestic household waste. When disposing products in the EU, contact your local Yokogawa Europe B. V. office.
